Re: Lower Darby Creek Area Superfund Site

Dear Ms. Prisk:

This acknowledges that Viad Corp received on November 29, 2005, EPA letter dated November 22, 2005 noticing Viad Corp as potentially responsible in the above-referenced matter (the "EPA Letter"). We kindly request a 60-day extension of time to reply with answers to questions in Enclosure E of the EPA Letter. We hereby agree to submit our response to you by February 28, 2006. We reviewed the questions contained in the EPA Letter and realize that answering such questions will require research that cannot be completed by December 29th. The holiday season and previously scheduled vacation times are additional factors requiring this time extension.

Independently and pursuant to FOIA, Viad Corp hereby requests copies of all documents that the EPA has in support of its allegation that Baldwin-Lima-Hamilton Inc. or its predecessors, between 1958 and 1976, may have arranged for the disposal of CERCLA hazardous substances to the Clearview, Fulcroft and Fulcroft Annex landfills. The EPA Letter provided no such information.

Please note that our company name is "Viad Corp" without a period at the end of "Corp" as "Corp" is not an abbreviation. Thank you for your consideration and attention to our requests.

Sincerely,

A handwritten signature in black ink, appearing to read "Deborah J. DePaoli".

Deborah J. DePaoli
Assistant General Counsel and Assistant Secretary
